Introducing

Parkline Overbed Light

Hospitality Series

The Parkline Overbed Light by Rayhil has been meticulously designed to provide the hospitality industry with an overbed lighting solution that exceeds all expectations. Ranging in width from two to four feet, the Parkline is designed for installation above a multitude of bed types and to offer a wide variety of illumination options for the bed and the room.

Whether a hotel room, nursing home, or hospital facility, make your guests instantly comfortable in their bedroom with the convenient Parkline Overbed Light.

Features

The Parkline's wattage and color temperature are field-selectable with switches located behind the fixture. They grant the flexibility to add yet another customized feel to any room the fixtures are placed in. Multiple knockouts on the Parkline's versatile mounting bracket allows for flexibility and ease when it comes to installation, helping you avoid any issue presented by layout changes.

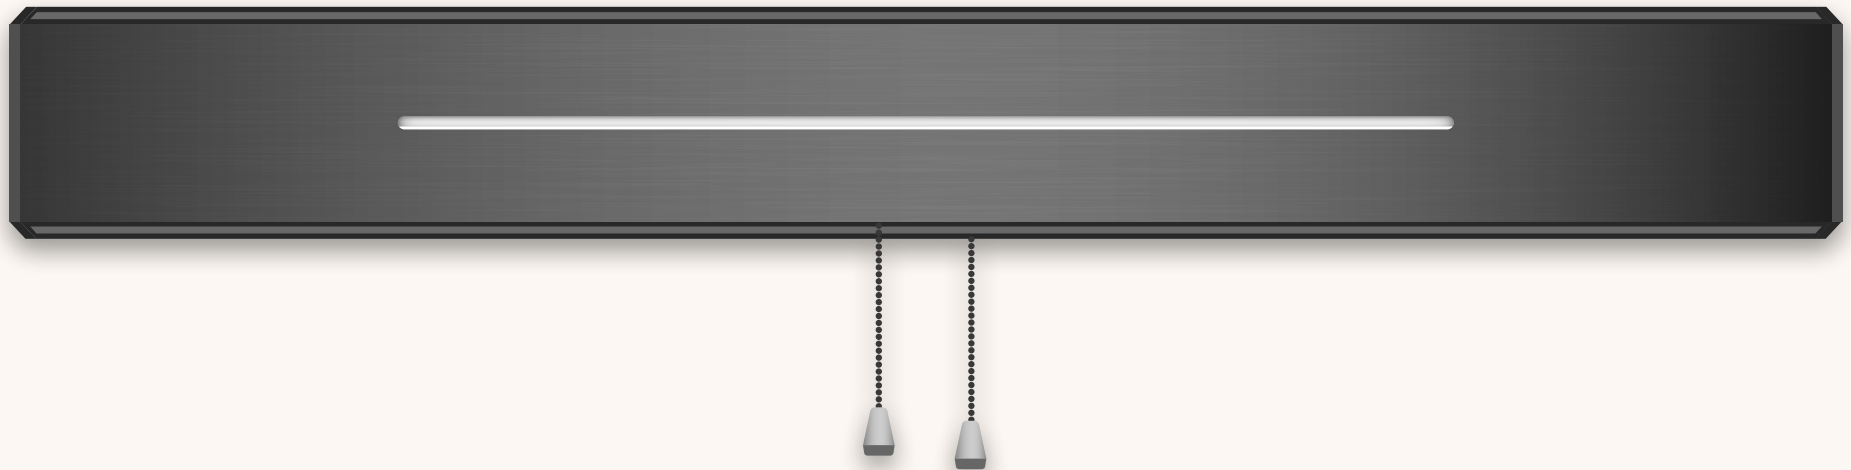

Standard finish options include white, brushed nickel, gold and black. Custom finishes and lengths are available to meet the visions of all designers. Whether you want the Parkline to match seamlessly to the wallpaper, or just to your guests' and clients' favorite color, we will strive to accommodate. Wood finishes are a particularly unique way to bring in the warmth and tranquility that is highly sought after in hospitality environments.

Lighting Direction Options

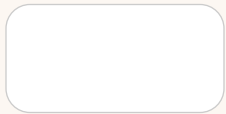

An equal combination of aesthetic and technical performance, the directional lights provide a multitude of choices for illumination. The top lighting option provides ambient lighting for the room, the bottom lighting option provides a reading light, the middle bar provides a night light option, or all three, or two lights can be combined. The brightness of each lighting direction can be customized for installation.

Finishing Options

The Parkline Overbed Light has the ability to reach the pinnacle of desirable aesthetics and functionalities. Starting with length, we offer 2ft, 3ft and 4ft sizes, which can fit in just about all application sites. Starting options include Pull-Chain and Hand Remote. The Pull-Chain comes in multiple sizes and the Hand Remote can either be Wireless or with a wire to ensure a lack of wandering. When it comes to aesthetics, The Parkline does not disappoint. Standard colors include black, white, brushed nickel and gold. If you require something more unique, a wide range of wood textures and custom colors are at the ready.
