STRIKE

Timeless intrigue and unlimited customization
through LED Architectural strip lights

Strike Series

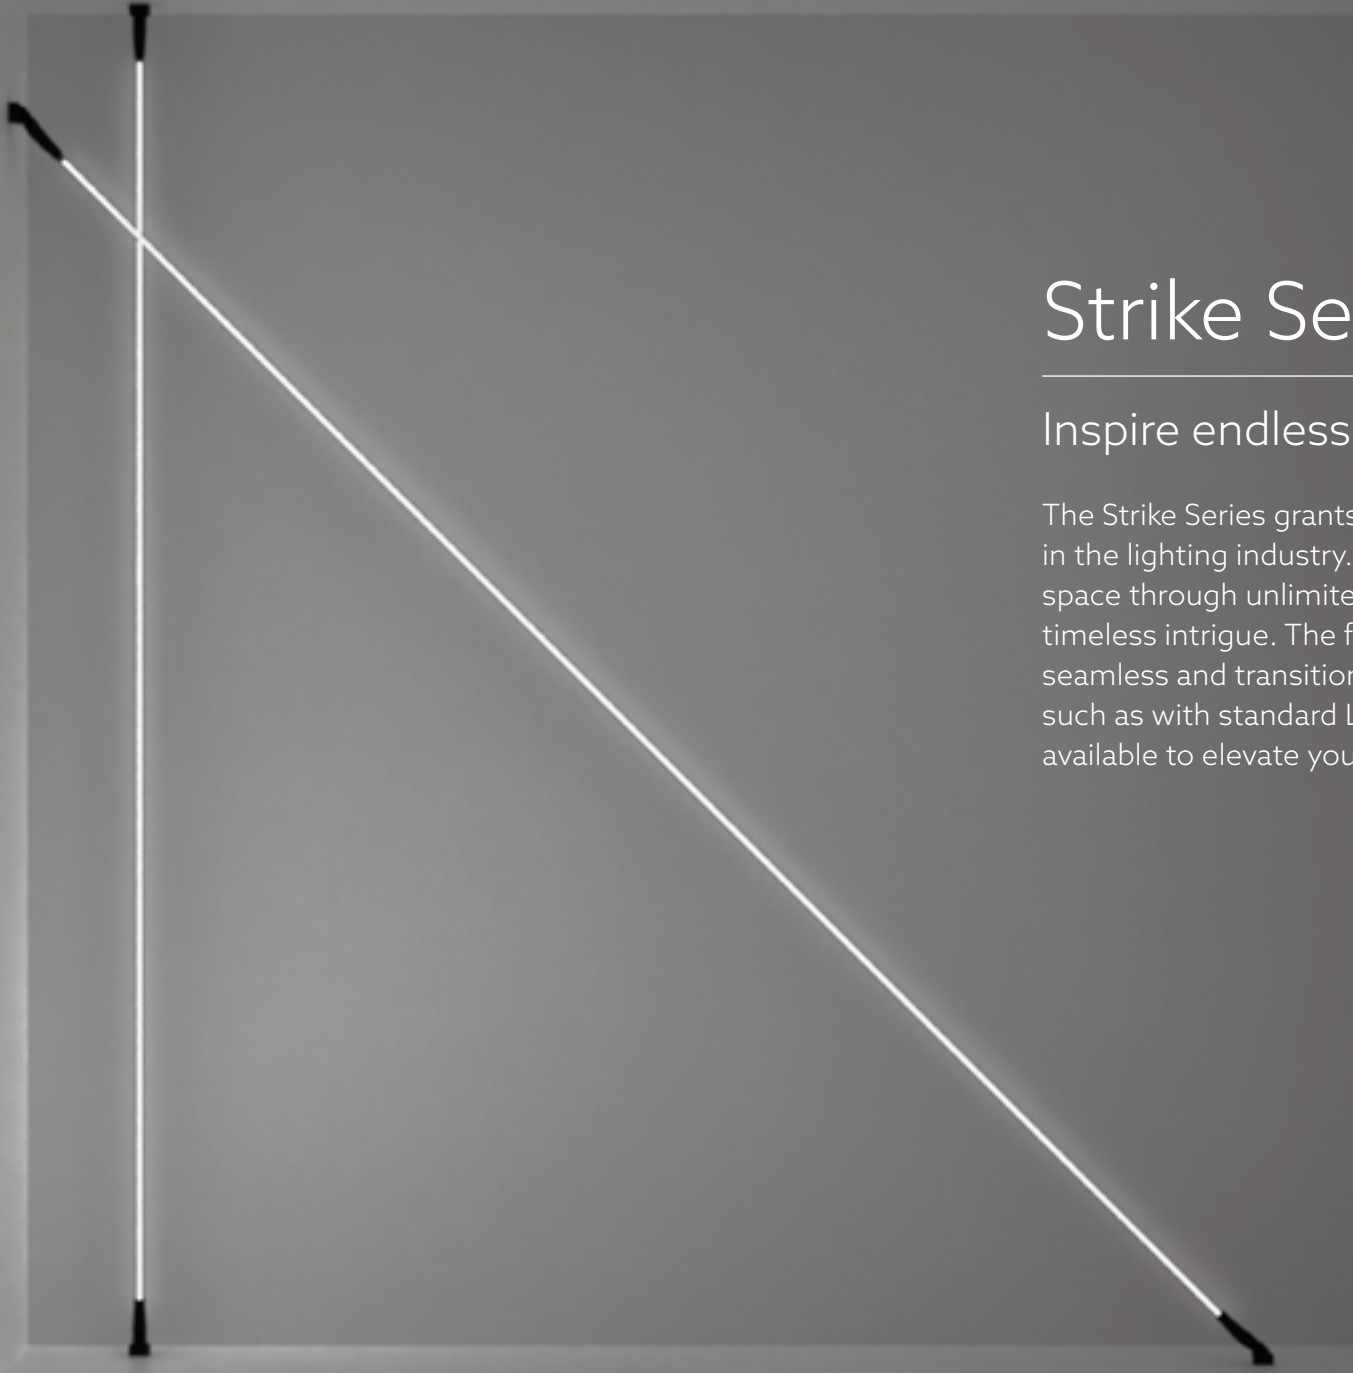

Elevate your design aspirations with the Strike Architectural Strip Light, an embodiment of imagination and limitless possibilities. This exposed strip light transcends the conventional, becoming a canvas for your creative vision. Securely fastened from wall to wall or ceiling, its innovative design becomes the medium through which unique lighting focal points are achieved

Strike Series

With the ability to be meticulously pulled and stretched up to an astounding 40 feet, this architectural marvel enables you to shape your interior's ambiance like never before. Illuminate spaces with your distinct flair, as the Strike Architectural Strip Light transforms into a conduit for artistic expression, turning each room into a personalized masterpiece of light and design

Strike Series

Inspire endless curiosity in your space

The Strike Series grants creative opportunities seldom seen in the lighting industry. These LED linear strips transform your space through unlimited shapes and formations to ensure timeless intrigue. The fixture's COB Strip technology creates a seamless and transitional light output without interruptions, such as with standard LED chips. Black and white finishes are available to elevate your space's elegance.

Color Temperature

Lighting is the foundation for any space, and selecting the right color temperature is an important choice that will determine the overall mood. The Strike Series offers various color temperatures with a 90 CRI output allowing you to enjoy pure and saturated brilliance in your environment.

Warm White

The soft warm light that is emitted from 3000 Kelvin creates an enticing and welcoming environment that beckons you to enter

Lumens per ft;
398lm

Natural White

Modern and minimalistic, 3500 Kelvin light will enhance your environment with a balanced and nurturing glow

Lumens per ft;
412lm

Day Light

4000 Kelvin sets your room in a clear, day-light infused setting that will make you feel refreshed

Lumens per ft;
426lm

Specifications

Diffuser	PC diffused cover
Length	Custom lengths available up to 40 ft
Weight	0.252kg/m
Max LED Strip Width	10mm
Material	Silicone
Finish	Black / White
Installation	Wall Mounting

COB Strip Light Specs

Wattage	4.6W/FT
Input Power	24W
CRI	80
LED Chip	COB
Environment	IP20
Maximum Run	20ft
Certification	UL / ETL
Dimming	Triac
Length per Roll	20ft.
Ambient Temperature	-20°C to 40°C
Height x Width	0.08" x 0.39
Adhesive	3M
Warranty	5 years

End Terminal

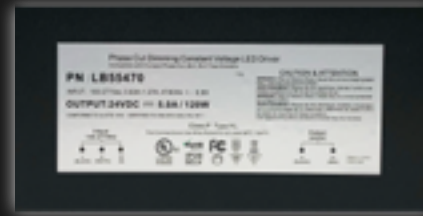

The end terminal of the strike architectural strip light is tightly screwed to achieve its taut appearance. By securely fastening the end terminal, the strip light is held in place with minimal slack or sag. This meticulous installation ensures a sleek and streamlined aesthetic, enhancing the overall visual impact of the architectural lighting design.

Power Supply Drivers

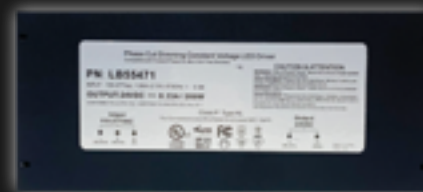

Model LB55488
