PARKLINE™ WALLSCONCE

HOSPITALITY SERIES

FEATURES

The Parkline™ Wall Sconce, tailored for the hospitality industry, combines elegance with functionality, offering adjustable lighting settings in a sleek, energy-efficient design. Its multi-directional lights cater to various needs, providing Ambient, Reading, and Night Light options in finishes that enhance any room's decor. While designed to be visually appealing and operationally versatile, it also discreetly meets ADA compliance, ensuring accessibility for all guests. This sconce is an ideal blend of sophistication and practicality, subtly enriching hospitality spaces.

PARKLINE™ WALLSCONCE

HOSPITALITY SERIES

Multiple knockouts on the Parkline's™ mounting bracket allow for flexibility and ease when it comes to installation. Should the bed setup be unaligned with the electric box, the mounting bracket will ensure properly centered placement

Easily accessible switches located on the back of the fixture provide 3 options of wattage and color temperature for all three light directions (Night Light is fixed at 5W)

POWDER COAT OPTIONS

The Parkline™ Wall Sconce has great function and performance, but sometimes looks are everything. Standard finish options are available, as well as a completely custom color. Whether you want the Parkline to match seamlessly to the wallpaper, or just your favorite color, we will strive to accommodate. Wood finishes are a particularly unique way to bring in the warmth and tranquility that is highly sought after in our environments.
