## LINKABLE LINEAR

LINEAR SERIES

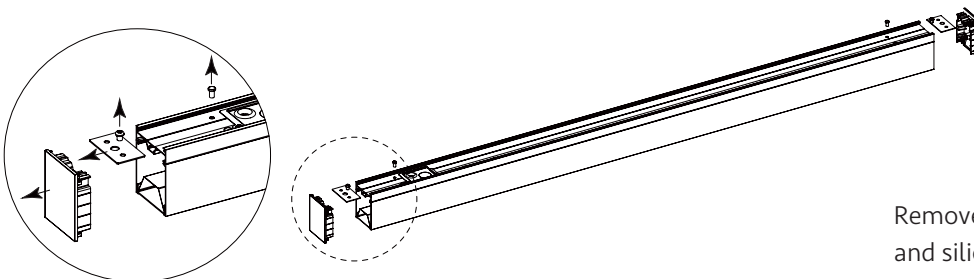

### STEP 3.

Feed power cord through cover plate and use wire nuts to connect wires in the J-box (not provided).

After wiring connections are made, use two M4x30 screws to attach the bracket to the wall.

### STEP 4.

Remove both ends caps, two suspension brackets and silicone plugs from the luminaire.

## LINKABLE LINEAR

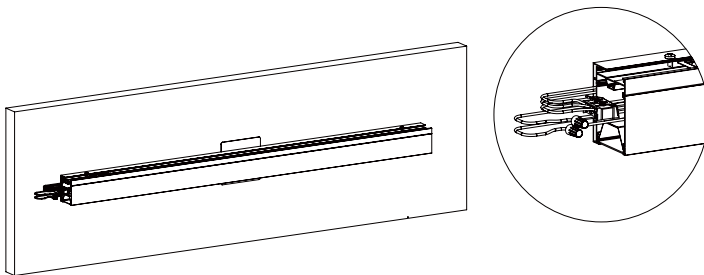

### LINEAR SERIES

## STEP 3.

Attach luminaire to wall mount bracket by using two M5 x12 screws.

## STEP 3.

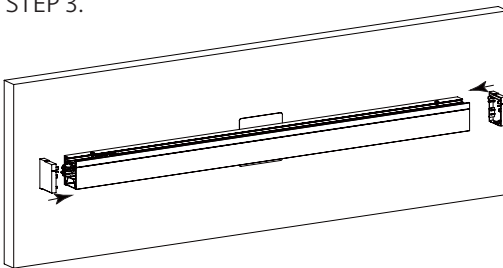

Connect power cord to luminaire's input wires and plug N,L,G wires into the terminal block.

- White wire into terminal N
- Black wire into terminal L
- Yellow/Green wire into grounding terminal

Pink and purple wires are for dimming, if you are not using the dimming feature, cap these wires with wire nuts.

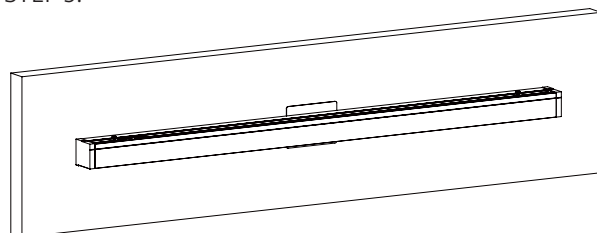

- Purple: Dim +
- Pink: Dim -

## STEP 3.

Tuck wires into the luminaire, and place wall mount end caps onto both ends.

## STEP 3.

Installation complete for single luminaire.
